DETAILED ACTION

1. Claims 27, 28, 30-33 and 35-37 are objected to under 37 CFR 1.75 as being a substantial duplicate of claims 1, 3, 7-9, 13, 19, 21 and 22. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).
2. It would also appear that claim 34 is a duplicate of claim 15, however the dependency is different.
3. Applicant has requested that the amendment filed 19 April 2003 be entered in the RCE and that the preliminary amendment also be entered, this is apparently what is causing the above problems.

Drawings

4. The proposed drawing correction and/or the proposed substitute sheets of drawings, filed on 24 June 2003 have been approved. A proper drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The correction to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 3723

6. Claims 5 and 27-37 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is unclear as to what these claims are drawn as they depend from claims that already make a reference to an attachment means that allows an operating member, i.e. a power tool, to be secured to the device. It thus appears that the same element is being twice claimed.

Also, the use of the reference numerals in new claims 27-37 only causes confusion as the same numeral is used to designate different elements, e.g. impact means (44), operating member (44) and means (44). The use of these numerals also causes a problem in claim 34 as the blades (14) are not part of the claimed embodiment of claim 27, from which claim 34 depends.

Allowable Subject Matter

7. Claims 1, 3, 7-9, 13, 15 and 19-22 are allowed.

Response to Arguments

8. Applicant's arguments with respect to claims 27-37 have been considered but are moot in view of the new ground(s) of rejection.

Applicant has filed a preliminary amendment that conflicts with the entered amendment of 28 April 2003 that was entered as requested in the filing of this RCE.
